## Ms. Bell's Summer Resources

While summer is a time to relax and enjoy time with friends and family, students are also encouraged to continue exercising their minds! Here are some fun tasks for summer. The links are available on Ms. Bell's BELL Academy page. This document will also be shared via email.

<b>Subject</b>	<b>Task</b>	<b>How to Access</b>
<b>ELA</b>	Check out the NYC DOE Summer reading list and select 2 books to read for fun!  When you complete each book, either write a brief summary or a letter to the author.	<a href="#">NYC DOE Summer Reading List for 7th Grade</a>
<b>Math</b>	Spend 20 minutes on MobyMax at least 2 times a week.	Login <a href="#">here</a> using the information that was provided to you in class. Your username is your first and last name with no space, and the password is <b>student</b> .
<b>Social Studies</b>	Stay informed about current events by logging into Newsela and reading at least one article. You can adjust the Lexile level of the article as needed. Please take the accompanying quiz to check your comprehension and be prepared to discuss the article on the first day of school.	<a href="#">Newsela.com</a>  Select "Sign in using Google" and use your BELL Academy email and password.
<b>Science</b>	This website has a multitude of science experiments and demonstrations that you can try at home using everyday materials. These would be perfect for rainy day fun, and younger siblings will also enjoy helping. Please try at least one experiment and write a brief (one paragraph) reflection about your results and what you learned.	<a href="#">Science Bob website</a>  <i>*Please remember adult supervision is ALWAYS required for hands on science.</i>
